Welcome

It is with a great deal of pride that we the members of the Potomac Afghan Hound Club present our 1997 Afghan Hound Specialty. This show is dedicated to the joy and magnificence that is an Afghan Hound.

We extend special appreciation to Pat Ibe and Rosemary Sutton for taking on the difficult job of determining which Afghans are best on this eighteenth day of April, 1997.

As in past years, we thank you the exhibitors for your support, for it is you and your dogs that make such an event a success. We sincerely hope that you enjoy your stay here in the beautiful Maryland country-side, and if we can be of assistance, just ask! We'll be glad to help. Good Luck!

We also thank you the family, friends and just spectators who have come to view the breath taking beauty of the Afghan Hound. Please enjoy the day and the dogs.

Official Standards of the Afghan Hound

General Appearance--The Afghan Hound is an aristocrat, his whole appearance one of dignity and aloofness with no trace of plainness or coarseness. He has a straight front, proudly carried head, eyes gazing into the distance as if in memory of ages past. The striking characteristics of the breed--exotic, or "Eastern", expression; long silky topknot, peculiar coat pattern, very prominent hipbones, large feet, and the impression of a somewhat exaggerated bend in the stifle due to profuse trowsersings--stand out clearly, giving the Afghan Hound the appearance of what he is, a king of dogs, that has held true to tradition throughout the ages.

Head--The head is a good length, showing much refinement, the skull evenly balanced with the foreface. There is a slight prominence of the nasal bone structure causing a slightly Roman appearance, the center line running up over the foreface with little or no stop, falling away in front of the eyes so there is an absolutely clear outlook with no interference; the underjaw showing great strength, the jaws long and punishing; the mouth level, meaning that the teeth from the upper jaw and lower jaw match evenly, neither overshot nor undershot. This is a difficult mouth to breed, a scissors bite, where the lower teeth slip inside and rest against the teeth of the upper jaw, should not be penalized. The occipital bone is very prominent. The head is surmounted by a topknot of long silky hair. Ears--The ears are long, set approximately on level with the outer corners of the eyes, the leather of the ear reaching nearly to the end of the dog's nose, and covered with long silky hair. Eyes--The eyes are almond-shaped (almost triangular), never full or bulgy, and are dark in color. Nose--Nose is of good size, black in color. Faults--Coarseness; snippiness; overshot or undershot; eyes round or bulgy or light in color; exaggerated Roman nose; head not surmounted with topknot.

Neck--The neck is of good length, strong and arched, running in a curve to the shoulders which are long and sloping and well laid back. Faults--Neck too short or too thick; a ewe neck; a goose neck; a neck lacking in substance.

Body--The back line appearing practically level from the shoulders to the loin. Strongs and powerful loin and slightly arched, falling away toward the stern, with the hipbones very pronounced; well ribbed and tucked up in the flanks. The height at the shoulders equals the distance from the chest to the buttocks; the brisket well let down, and of medium width. Faults--Reach back, swayback, goose rump, slack loin, lack of prominence of hipbones; too much width of brisket, causing interference with elbows.

Tail--Tail set not too high on the body, having a ring, or a curve on the end; should never be curled over, or rest on the back, or be carried sideways; and should never be bushy.

Legs--Forelegs are straight and strong with great length between elbow and pastern; elbows well held in; forefeet large in both length and width; toes well arched; feet covered with long thick hair; fine in texture; pasterns long and straight; pads of feet unusually large and well down on the ground. Shoulders have plenty of angulation so that the legs are well set underneath the dog. Too much straightness of shoulder causes the dog to break down in the pasterns, and this is a serious fault. All four feet of the Afghan Hound are in line with the body, turning neither in nor out. The hind feet are broad and of good length; the toes arched, and covered with long thick hair; hindquarters powerful and well muscled, with great length between hip and hock; hocks are well let down; good angulation of both stifle and hock; slightly bowed from hock to crotch. Faults--Front or back feet thrown outward or inward; pads of feet not thick enough; or feet too small; or any other evidence of weakness in feet; weak or broken-down pasterns; too straight in stifle; too long in hock.

Coat--Hindquarters, flanks, ribs, forequarters, and legs well covered with thick, silky hair, very fine in texture; ears and all four feet well feathered; from in front of the shoulders and also backwards from the shoulders along the saddle from the flanks and the ribs upward, the hair is short and close, forming a smooth back in mature dogs--this is a traditional characteristic of the Afghan Hound. The Afghan Hound should be shown in its natural state; the coat is not clipped or trimmed; the head is surmounted (in the full sense of the word) with a topknot of long silky hair--that is also an outstanding characteristic of the Afghan Hound. Showing of short hair on cuffs on either front or back legs is permissible. Fault--Lack of short-haired saddle in mature dogs.

Height--Dogs, 27 inches, plus or minus one inch; bitches, 25 inches, plus or minus one inch.

Weight--Dogs, about 60 pounds; bitches, about 50 pounds.

Color--All colors are permissible, but color or color combinations are pleasing; white markings, especially on the head, are undesirable.

Gait--When running free, the Afghan Hound moves at a gallop, showing great elasticity and spring in his smooth, powerful stride. When on a loose lead, the Afghan can trot at a fast pace; stepping along. He has the appearance of placing the hind feet directly in the foot prints of the front feet, both thrown straight ahead. Moving with head and tail high, the whole appearance of the Afghan Hound is one of great style and beauty.

Temperament--Aloof and dignified, yet gay. Faults--Sharpness or shyness.

I purchased my first Afghan from the famed Parnir kennels in 1968, and at that time, I had no knowledge or interest in showing dogs, but like many, fell in love with their aesthetic beauty, flowing gait and glamorous coat. I figured my attachment was because I had this hair fetish. At the time, I was a hair dresser, studied under Vidal Sassoon, performed and taught platform work, competed in hair shows, and owned my own business. In my spare time I danced competitively. I always loved animals, so just living with such a gorgeous creature, I felt sure, would be all I would want from this dog. Even though the lensens tried to convince me to consider a show dog rather than a pet, I would hear none of it. My life was busy enough, and, anyway, only very strange people showed dogs! Being a typical Afghan, "Iffy" was stubborn and very hard headed, like no other dog I'd ever owned. So, I entered a handling class just to learn how to deal with her personality. One thing lead to another and I became more interested in the breed and this sport called dog shows, proving I was as crazy and strange as the people that showed dogs!

It wasn't until 1975 that I got my first real show Afghan, Isfahan's Silver Godspell, from Frank and Robin Vasquez. Unfortunately, "Godspell" died of bloat before he finished, but he was a wonderful dog, noted for his great movement. Also, around this time, I bought my first Whippet. My Whippets have gone on to do a lot of winning and have set some wonderful records. In the late 70s, I finished my first Afghan, Ch. Summerwind Sacre Bleu Mist. Then, shortly after, finished SBIS Ch. Summerwind Hard Act to Follow, both handled by Warren Cook.

In 1980, I met my husband Bruce, fell in love, and we both totally went to the dogs. We formed Summerwinds BIS Inc, a product and market development company in the pet industry. Both Bruce and I became professional handlers, handling and campaigning many of this country's finest dogs in Afghans, Whippets, Greyhounds, Borzois, Irish Wolfhounds, Salukis, etc. Between Bruce and I, I don't know how many champions we've finished for others, but it's been too many to remember.

At his point, we have bred and owned well over 100 AKC champions, plus many other champions in many other countries. We've owned and handled the number one Whippet in 1994--Ch. Snowy Creek Best Bet of Bohem, the number one Afghan and number three Afghan--SBIS Ch. Naptali's Caleb Calbee, and the number two male and number six Afghan--BIS Ch. Paladin the Darkman V Isameh--all in the same year.

This year I am handling and campaigning the beautiful BIS Ch. Paladin the Darkman V Isameh again for his new owner Winderrere, and breeder/co-owners Michael Liss, Bruce and I.

I feel very honored to be asked to judge sweeps at the Potomac Afghan Hound Club, and look forward to seeing some future stars. Thank you.

Introducing:
The Regular Classes Judge

Ms. Patricia De

My first experience in show dogs was primarily with Afghan Hounds. We showed and bred Afghans under the "Huzzah" prefix. After about fifteen years in the breed, we obtained our first Greyhound which soon multiplied into many more, rivaling the Afghans in number. Since the Greyhound was easier to maintain, and there was far less competition and preparation at shows, we gradually phased out the Afghans through attrition. Combining numbers from both breeds, we have bred more than 100 champions, including BIS and group winners, as well as nine specialty BIS winners. We have dabbled in several other sight hound breeds and now have a few Cavaliers. However, there will always be a special place in my heart for the Afghan. This breed has a certain charm no other breed possesses and, once experienced, is not soon forgotten.

My judging experience began with assignments in England, Australia and Mexico, before I had applied to judge here in the States. I had sent two Afghans overseas, Am. Eng. Ch. Huzzah Excelsis to England and Am. Aust. Ch. Huzzah Jack Frost to Australia. Both were quite successful in their new homes which, I'm sure, prompted the judging assignments.

Presently, I am approved to judge the Hound Group and Italian Greyhounds. I have judged in most states and in England, Australia, Canada, Finland, Sweden and Norway. I have seen Afghans in many places and am most impressed with the fashion in which the worldwide breeders cooperate with one another. This is probably the main reason the breed is in such fine condition today.

I am truly delighted to have been invited to judge this specialty and I wish you all as much enjoyment from the day as I expect to have.
