Welcome

It is with a great deal of pride that we, the members of the Potomac Afghan Hound Club, present our Fall 2014 Afghan Hound Specialty. This show is dedicated to the joy and magnificence that is an Afghan Hound and to the owners and handlers who choose to celebrate here.

We extend special appreciation to Mrs. Rachel Irvin, Mr. Marcelo Veras, and Mr. Al Ferruggiaro for taking on the difficult job of determining which Afghan Hounds (in their respective assignments) are best on this Twenty-Sixth day of September, 2014. We extend to them a warm welcome and trust that they will enjoy the dogs presented here today.

As in past years, we thank you the exhibitors for your support, for it is you and your dogs that make such an event a success. We sincerely hope that you enjoy your stay here in the beautiful Virginia Piedmont and specifically here at the "Farm." If we can be of assistance, just ask! We'll be glad to help. Good Luck!

We also thank you the family, friends and spectators who have come to view the breath taking beauty (and at times, the clownish antics) of the Afghan Hound. Please enjoy the day and the dogs.

Thank you to Gary Byington for allowing us to use his art work on our cover.

# Official Standard of the Afghan Hound

**General Appearance--**The Afghan Hound is an aristocrat, his whole appearance one of dignity and aloofness with no trace of plainness or coarseness. He has a straight front, proudly carried head, eyes gazing into the distance as if in memory of ages past. The striking characteristics of the breed--exotic, or "Eastern", expression; long silky topknot, peculiar coat pattern, very prominent hipbones, large feet, and the impression of a somewhat exaggerated bend in the stifle due to profuse trousersings--standout clearly, giving the Afghan Hound the appearance of what he is, a king of dogs, that has held true to tradition throughout the ages.

**Head--**The head is a good length, showing much refinement, the skull evenly balanced with the fore face. There is a slight prominence of the nasal bone structure causing a slightly Roman appearance, the center line running up over the fore face with little or no stop, falling away in front of the eyes so there is an absolutely clear outlook with no interference; the under jaw showing great strength, the jaws long and punishing; the mouth level, meaning that the teeth from the upper jaw and lower jaw match evenly, neither overshot nor undershot. This is a difficult mouth to breed. A scissors bite, where the lower teeth slip inside and rest against the teeth of the upper jaw, should not be penalized. The occipital bone is very prominent. The head is surmounted by a topknot of long silky hair. **Ears--**The ears are long, set approximately on level with the outer corners of the eyes, the leather of the ear reaching nearly to the end of the dog's nose, and covered with long silky hair. **Eyes--**The eyes are almond-shaped (almost triangular), never full or bulgy, and are dark in color. **Nose--**Nose is of good size, black in color. **Faults--**Coarseness; snippiness; overshot or undershot; eyes round or bulgy or light in color; exaggerated Roman nose; head not surmounted with topknot.

**Neck--**The neck is of good length, strong and arched, running in a curve to the shoulders which are long and sloping and well laid back. **Faults--**Neck too short or too thick; a ewe neck; a goose neck; a neck lacking in substance.

**Body--**The back line appearing practically level from the shoulders to the loin. Strong and powerful loin and slightly arched, falling away toward the stern, with the hipbones very pronounced, well ribbed and tucked up in the flanks. The height at the shoulders equals the distance from the chest to the buttocks; the brisket well let down, and of medium width. **Faults--**Roach back, swayback, goose rump, slack loin, lack of prominence of hipbones; too much width of brisket, causing interference with elbows.

**Tail--**Tail set not too high on the body, having a ring, or a curve on the end; should never be curled over, or rest on the back, or be carried sideways; and should never be bushy.

**Legs--**Forelegs are straight and strong with great length between elbow and pastern; elbows well held in; forefeet large in both length and width; toes well arched; feet covered with long thick hair, fine in texture; pasterns long and straight; pads of feet unusually large and well down on the ground. Shoulders have plenty of angulation so that the legs are well set underneath the dog. Too much straightness of shoulder causes the dog to break down in the pasterns, and this is a serious fault. All four feet of the Afghan Hound are in line with the body, turning neither in nor out. The hind feet are broad and of good length; the toes arched, and covered with long thick hair; hindquarters powerful and well muscled, with great length between hip and hock; hocks are well let down; good angulation of both stifle and hock; slightly bowed from hock to crotch. **Faults--**Front or back feet thrown outward or inward; pads of feet not thick enough; or feet too small; or any other evidence of weakness in feet; weak or broken-down pasterns; too straight in stifle; to long in hock.

**Coat--**Hindquarters, flanks, ribs, forequarters, and legs well covered with thick, silky hair, very fine in texture; ears and all four feet well feathered; from in front of the shoulders and also backwards from the shoulders along the saddle back in flanks and the ribs upward, the hair is short and close, forming a smooth back in mature dogs--this is a traditional characteristic of the Afghan Hound. The Afghan Hound should be shown in its natural state; the coat is not clipped or trimmed; the head is surmounted (in the full sense of the word) with a topknot of long silky hair--that is also an outstanding characteristic of the Afghan Hound. Showing of short hair on cuffs on either front or back legs is permissible. **Fault--**Lack of short-haired saddle in mature dogs.

**Height--**Dogs, 27 inches, plus or minus one inch; bitches, 25 inches, plus or minus one inch.

**Weight--**Dogs, about 60 pounds; bitches, about 50 pounds.

**Color--**All colors are permissible, but color or color combinations are pleasing; white markings, especially on the head, are undesirable.

**Gait--**When running free, the Afghan Hound moves at a gallop, showing great elasticity and spring in his smooth, powerful stride. When on a loose lead, the Afghan can trot at a fast pace; stepping along, he has the appearance of placing the hind feet directly in the foot prints of the front feet, both thrown straight ahead. Moving with head and tail high, the whole appearance of the Afghan Hound is one of great style and beauty.

**Temperament--**Aloof and dignified, yet gay. **Faults--**Sharpness or shyness.

## Four-to-Six Month Puppy Class

Judge

Mr. Al Ferruggiaro  
3201 Belle Cote Drive  
Burtonsville, MD 20866

I have had a passion for purebred dogs, dating back to the early sixties and my junior showmanship days. I also held a junior membership in the Sand and Sea Kennel Club at that time, in my native New Jersey.

My life with terriers began in 1978 when I acquired my first Lakeland terrier and life has not been dull since.

I began judging in 1998 and am currently approved to judge three Groups and Best In Show. I judge all-breed shows regularly throughout the US and have judged in Canada, China, and Japan.

I attended the AHCA National Specialty on September 20, 2006 in Lancaster, Pennsylvania. There I completed the Judges Educational Seminar that consisted of a classroom presentation, a hands-on demonstration and application, and ringside tutoring. I attended an AHCA-approved Breed Seminar hosted by the Mason-Dixon Dog Judges Association in Frederick, Maryland on May 26, 1998. I have judged Afghans at five matches and I have awarded all-breed Best in Shows to Afghans on several occasions.

I'm really looking forward to judging the 4-6 month Puppy Competition at the PAHC Specialty.

Mrs. Rachel Irvin (Elian Afghans)  
765 Reynolds Bend Road  
Rome, GA 30161

I was raised in a very dog friendly household and have been involved in conformation since I was about 10. We bought our first Afghan in 1967 who was a Shirkahn granddaughter. Her pedigree was half Akaba and half Mecca. During my youth my family owned several showdogs from Akaba and Dynasty kennels and bred 2 litters. We had the unique fortune of living within 20 minutes to Lois Boardman, Fred Alderman, Pat Wallace and the Nesbitts. Lois and Fred were especially close family friends and served as my earliest and most important mentors. My vision and respect for the standard is based on the high bar set by these breed icons.

I took a brief hiatus from the dog shows after graduating college, starting a family and developing my nursing career as a Clinical Specialist at the Children's Hospital in Chicago. During this time, I did extensive volunteer work, traveling to various third world countries performing surgery on indigent children. I returned to the show ring after meeting Jerry Klein and Ken Tippiie of Sebring Afghans, and acquiring my, now, foundation bitch Ch. Sebring Elian. This has led to a lasting friendship and partnership that transcends dog shows. Over the last 20 years, the collaboration of Elian – Sebring has produced over 40+ conformation champions and some top coursing dogs. I was very proud to be the breeder/owner/handler of Int Ch. Elian Sebring The Matrix who won back-to-back National Specialties, along with many specialty and all breed BIS's with limited showing. He was breeder-owner handled to #1 Afghan for 2006. Bred very sparingly, and never at public stud, he has produced over 28 champion offspring, with more near finishing, and was #1 stud dog for 2009. In addition to the Afghans, I bred and showed Chinese Cresteds for 14 years. I live north of Atlanta on a horse farm with my husband Pete, and of course, the hounds and the horses. Our daughter, Leah, is involved in the film industry and lives abroad in Jerusalem, Israel.  
I am honored to be invited to judge your specialty and look forward to the assignment.
